

In lieu of a blog post this week, I've co-authored a piece with Nathan Finney on reforming our professional military education system. As we reset many of our systems across the military, I believe that now is the time to review how we educate our leaders. Feel free to respond on this blog or on the DEF blog. The post can be found at :

I'm looking forward to meeting with leaders from across the services this weekend as we tackle this issue and several more!

Don't forget that this weekend's conference will be available simulcast at the link below:
